Key Insights:

- 191K listings analyzed: average sale price PKR 24.7M, but the median is only 13.5M, luxury listings pull the average up.
- Islamabad is the priciest market (31.3M avg), Faisalabad the most affordable (14.1M), a 2.2x gap between cities.
- Houses (29.2M avg) cost ~2.6x flats (11.2M); farmhouses top the ladder at 64.4M.
- The July 2019 listing spike reflects when the data was collected, not a market boom, read the trend with that in mind.

Average Sale Price by City

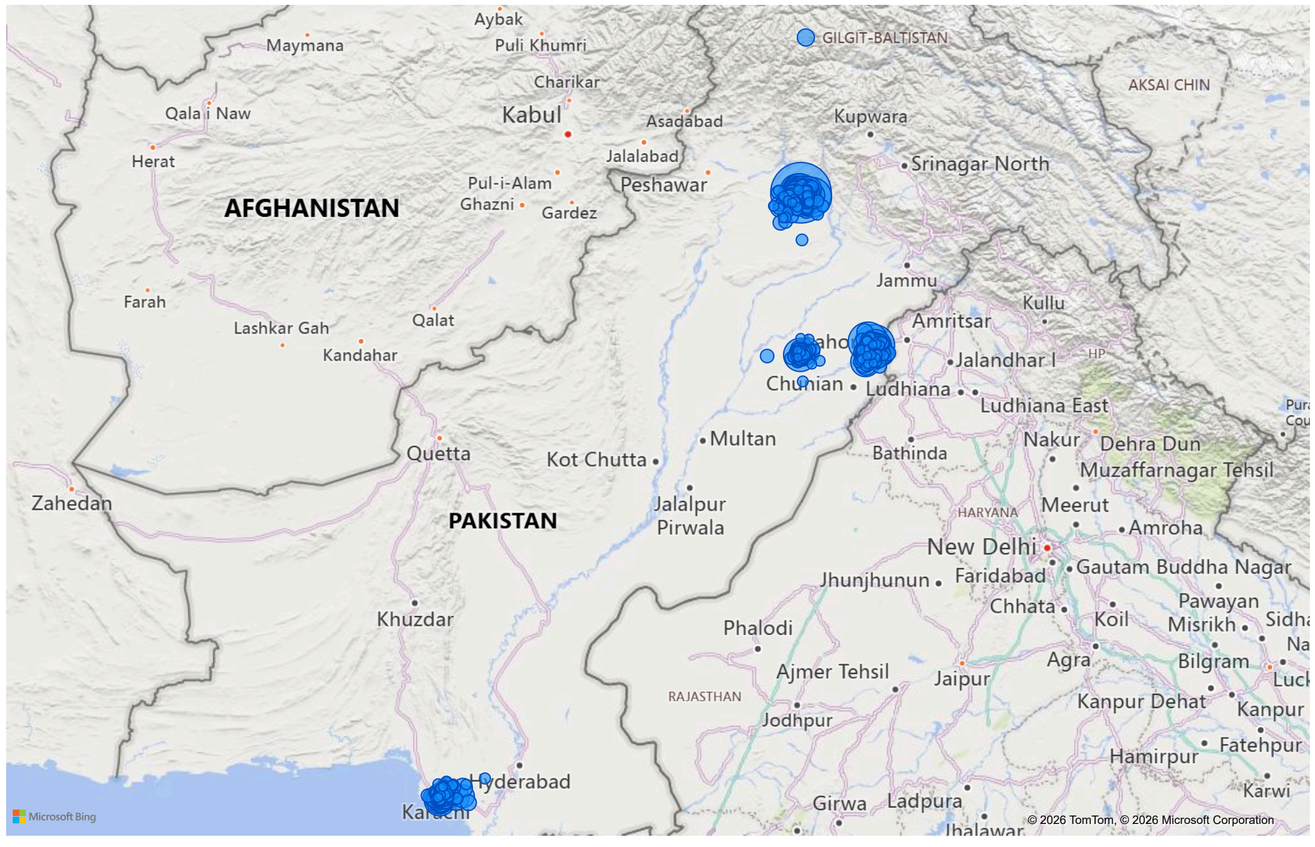

Listing Activity by Month

Key Insights:

• Price hotspots cluster in DHA and Bahria Town societies, the map's biggest bubbles sit on branded developments in every major city.
• Top rental yields: Shahra-e-Faisal (Karachi) ~19%, PWD Road and Tarnol (Islamabad) ~11% commercial corridors beat pure residential pockets.
• Every yield bar rests on 10+ sales AND 10+ rentals, thin-data areas are hidden, not faked.
• Investment takeaway: mid-tier areas yielding 7–9% offer the best risk-adjusted profile; extreme outliers deserve on-ground verification before trusting them.
